Modern Chromatography Techniques

A four day course designed for users of modern GC and HPLC equipment

ChromAfrica, in Collaboration with Kyambogo University Faculty of Science and Uganda Industrial Research Institute are pleased to Invite Participants to A Modern Chromatography Techniques Training Conference and Kampala 2010 Life Science Expo. 6th -10th August 2010

The four day Training Conference is designed for users of modern GC & HPLC equipment and Kampala 2010 Life Science Expo Is planned to give the Equipment and Supply vendors an opportunity to Show case their latest Product Offering to the laboratory Community in East and Central Africa.

Presented by

A workshop presented by Merlin K. L. Bicking, Ph.D. , of ACCTA, Inc.

Summary

This four and one-half day course is designed for an analyst with 1 - 4 years of experience with modern chromatography equipment, including High Performance Liquid Chromatography (HPLC) and Gas Chromatography (GC). Students will learn about how the equipment is designed and how to properly operate the equipment for routine analysis. An introduction to basic troubleshooting will also be presented. The emphasis for this presentation will be on practical operation, not theory.

This course will provide time for students to ask questions and participate in discussions about HPLC. Students are encouraged to bring questions and examples from their own laboratories. Laboratory equipment will be available at some events, and demonstrations will be part of the discussion sessions. Each event will also offer time for vendor presentations and discussions with students.
Instructor

Merlin K.L. Bicking is President, ACCTA, Inc. He has been actively involved in chromatography for more than 25 years, and has been teaching and training lab analysts for most of those years. The topics in this seminar are drawn from well-respected sources and his own experience. His professional biography is available at www.accta.com/bicking.html

Location and Registration

This course is scheduled for August 2010 at Uganda Industrial research Institute Uganda in collaboration with the Faculty of Science Kyambogo Uganda. The course will attract a discounted fee of US\$ 600.00 . For more information contact Mr John Angira jangira@icipe.org or Dr Merlin Bicking on mbicking@accta.com.

Course Outline

Day 1

- Introductions
- A Brief Introduction to Chromatography Theory
- LC Definitions and Descriptions
- Design of LC instruments
- Operating Modes and Examples
- Discussion

Day 2

- Operating Parameters
- Introduction to Troubleshooting LC Systems
- Sample Preparation for LC
- Laboratory Demonstrations (when available)
- Discussion

Day 3

- GC Definitions and Descriptions
- Design of GC Instruments and Components
- An Introduction to GC Columns
- Discussion

Day 4

- Operating Your GC
- Introduction to Troubleshooting GC Systems
- Sample Preparation for GC
- Laboratory Demonstrations (when available)
- Discussion

Day 5

- Vendor Presentations and Discussion

Venue and Chromatographic facilities at Uganda Industrial Research Institute

The Training takes place in UIRI Chemistry laboratory and Conference Centre. The equipment in the UIRI Chemistry Laboratory have been Upgraded to make it one of the elite Laboratories in the East African region.

The Trainees will have at their disposal GCFID, GC ECD, HPLC Diode Array, HPLC-Fluorescence, HPLC -RI Instrumentation and a large variety of sampling and preparation equipment

Registration form at www.chromAfrica.com and www.uiri.org

Kampala 2010 Life Science Expo

Who, What, When, Where, Why?

Our mission is "bringing scientific and technical resources to the African continent." One way to do that is to get scientists and vendors together during our training seminars. But there are other opportunities for scientists to meet with the companies who provide scientific products and services. An exhibition is another great opportunity for these two groups, scientists and vendors, to meet each other.

Kampala 2010 Life Science Expo will be the most comprehensive science marketing event ever offered in Uganda. This event will accomplish two main goals: *the introduction of scientists to the vendors who supply scientific products and services, and the introduction of vendors to multitudes of potential customers.*

6th August, 2010
Uganda Industrial Research Institute
Kampala, Uganda

This event will be held at the Uganda Industrial Research Institute (UIRI) in Kampala, Uganda on 6 August, 2010. Our organizations share the mission of spreading scientific knowledge across the region for the benefit of all African scientists. This event will provide a setting and the resources necessary for scientists and students to meet with and learn from technical experts on laboratory practices, systems, and equipment.

This year's ChromAfrica training will include advanced instruction in liquid chromatography and gas chromatography. In addition, we will be conducting an exposition of the Life Science companies operating in East and Central Africa. This vendor show is intended to attract a maximum number of attendees and will be open to the public. We are expecting more than 300 attendees.

What does this mean for me as vendor? Register as a vendor.

This is your opportunity to meet hundreds of scientists in one location over the two days of the exposition. Meet your existing customers, and show your products and services to hundreds of new customers. You can also provide a short presentation to small groups in a nearby room. A modest fee will reserve your spot at Kampala 2010 Life Science Expo. Register now as a vendor.

What does this mean for me as a scientist? Register as a Scientist Visitor.

Admission is free! This is your opportunity to meet the vendors that you already know, and to meet new vendors. These companies have the products and services that will help your research, and you can find them all in one place. Although admission is free, all visitors must register before they are allowed to enter the Expo area. Preregistration is advised to minimize delays when you arrive.

Become a Vendor

Information and Application

<p>Option A: Web Ad Duration: one year Cost: \$400</p>	<ul style="list-style-type: none"> • Logo appears on the vendor page along with a short description and one link to an external site or email address. Logo rotates on the home page.
<p>Option B: Printed Materials + Web Ad Duration: one event Cost: \$800</p>	<ul style="list-style-type: none"> • Provide printed materials only for students at training event. • Name and logo appear in event program book. • Web Ad for one year
<p>Option C: Event Sponsor + Web Ad Duration: one event Cost: \$1,500</p>	<ul style="list-style-type: none"> • One table/booth at a training event. • Name and logo appear in the event program book + Web Ad for one year.. • One seat at the training event (can be donated to student requesting support). • Presentation of capabilities during vendor exhibition. • Submit applications and information for inclusion in event training material (acceptance at the discretion of the instructor)
<p>Option D: Exposition Vendor Duration: one event Cost: \$1,500</p>	<ul style="list-style-type: none"> • Option C (Event Sponsor) + Option D (Expo Vendor) for a single event. • Priority placement at both events.
<p>Silver Level Event Sponsor Duration: one event Cost: \$2,000</p>	<ul style="list-style-type: none"> • One table/booth at exposition. • Name and logo appear in promotional materials. • Name and logo appear in program book.
<p>Gold Level Program Sponsor Duration: one year Cost: \$5,000</p>	<ul style="list-style-type: none"> • One table/booth at all training events (unlimited) for one year with priority placement. • Name and logo appear in the event program book + Web Ad for one year.. • One seat at each training event (can be donated to student requesting support). • Priority placement of name and logo in event program book. • Presentation of capabilities during vendor exhibition. • Submit applications and information for inclusion in event training material (acceptance at the discretion of the instructor). • Free participation as a vendor in all Science Expositions held at the same location.

Terms and Conditions

ChromAfrica LLC, and it's organizing partners, is the sponsor, organizer and manager of these events, which consist of web site advertising, a training event, and associated vendor exhibition («Event»).

ChromAfrica is entering into an agreement with a marketing vendor («Vendor») to provide marketing opportunities in association with ChromAfrica events.

These events may be held at multiple locations in Africa, at either public or private locations. ChromAfrica LLC is providing opportunities for Vendors to meet and interact with students at training events.

These interactions are expected to involve scientific discussions only. Any other nonscientific activities, such as completion of sales agreements and exchange of payment at the Event facilities, are not permitted.

Furthermore, ChromAfrica LLC may allow some Vendors to submit technical information which may be considered for inclusion in the training documents. Such information is expected to be of a scientific nature (applications, schematics, protocols, etc.), and directly related to the subject of the training.

Any information whose primary purpose is marketing will not be accepted. Note that the instructor will make the final decision about how, or if, to incorporate this information into the training documents.

Event Organizer Responsibilities

- Provide marketing opportunities in accordance with the described options.
- Notify vendor of Event location at least 30 days in advance of Event.
- Notify vendor of any location restrictions or requirements for the Event site.
- Provide access to the exhibitor area in advance of the start of the Exhibit.
- Provide contact information for all registered students for each training event.

Vendor Responsibilities

- Complete registration and payment at least 30 days in advance of the Event.
- Notify Event organizers and site of any requirements (electrical, plumbing, etc.). Additional charges may apply at some sites and for some services.
- Provide all support equipment needed for operation of equipment (gases, liquids, fittings, containers, etc.). Collect and remove any waste generated from operation of equipment.
- Observe all local environmental, safety, and health requirements and regulations in installation and operation of equipment.

Waiver and Release:

The Vendor assumes all responsibility for and all risk of any damage or injury whether to property or person, including death that may occur to the Vendor, its employees, agents, licensees, or invitees at or in connection with the Event. The Vendor further releases ChromAfrica and its officers, directors, employees and agents from all claims, demands, rights or causes of actions, present or future, known, anticipated or unanticipated, resulting from or arising out of or incident to the Vendor's use of any facilities associated with the Event.

Select Your Option

	Option A: Web Ad Cost: \$400
	Option B: Printed Materials + Web Ad Cost: \$800
	Option C: Event Sponsor + Web Ad Cost: \$1,500
	Option D: Exposition Vendor Cost: \$1,5000
	Silver Level Event Sponsor Cost: \$2,000
	Gold Level Program Sponsor Cost: \$5,000
